HUNGERFORD MEAT CO

Hungerford Meat Co has a storied history rooted in the agriculture of the Hunter Valley. Upon acquiring the historic building and butchery, they seized the chance to restore it to its former glory.

By collaborating with local producers and farmers and utilising the entire animal in their offerings—from fresh cuts to charcuterie and smoked meats—they foster stronger connections between our kitchen and the best producers of the region.

NEWCASTLE GREENS

Since 2012, Newcastle Greens has supplied restaurants, cafes, and private chefs with rare varieties sourced globally for unique textures, flavours, and visual appeal. Their produce is exclusively soil-grown, eschewing hydroponics or NFT systems. Utilising hot houses and mixed permanent raised beds, their farm employs seasonal cropping and perennial plants. Collaborating closely with our chef, they grow leaves, flowers, and vegetables tailored to our preferences, fostering satisfaction, connection, and expertise from seed to plate.
